Easter Bunny

Just like Christmas 2012, I don't want to miss releasing a related paper craft model in Easter this year. So I prepare this pattern early, although Easter is still in March 31st. This paper craft patterns is a quick modeling, done in a day. I choose Easter Bunny because a very common symbol of Easter celebration and also a symbol festivity around Easter dates that widely accepted even for non Christian, just like Santa in Christmas. The symbol itself actually the eggs, that often carried by a rabbit, that is called an Easter Bunny. This template contains only 2 pages of patterns, you can choose which bunny eyes you're going to make or make them both.
